Product Systems

EGO SMP 805

EGO Dichtstoffwerke GmbH & Co. Betriebs KG

EGO SMP 805 is a single-component, odourless adhesive & amp; sealant that cures with the humidity in the air to form an elastic end product. It does not contain solvents, is free from silicone and isocyanite and provides high resistance against chemicals. For bonding and sealing in the field of construction and industry, for both indoor and outdoor applications, e.g. in metal, roof, camper van and concrete construction. Sealing for elastic connection joints in buildings and pedestrian paths. Can also be used on plaster, gypsum, ceramics, timber, glass, enamel, zinc, lead, stainless steel, HPL highpressure laminates, hard PVC, aluminium, galvanised sheet metal, fibre-reinforced cement and various plastic substrates. Well suited for bonding of construction foils, rails/strips and panels. If to be used with porous natural stone or some types of plastics, such as PA, PS, EPDM, please perform your own application-related tests and trials or consult us. EGO SMP 805 fulfills the requirements according to EMICODE EC 1 PLUS.

System description

The DGNB certification system was founded by the "German Sustainable Building Council" and first appeared on the market in 2008. The DGNB system evaluates buildings holistically on the basis of individual criteria within the categories Ecological Quality, Economic Quality, Sociocultural and Functional Quality, Technical Quality, Process Quality and Location Quality. Different profiles allow the certification of new buildings and existing buildings, as well as of quarters in Germany and Internationally. Buildings can achieve a certification in Bronze, Silver, Gold and Platinum. Up to now, more than 3,500 projects have been awarded by the DGNB (as of June 2018).

Disclaimer

This verification is the evaluation and ranking of products in terms of the certification system DGNB 2015 (New construction of office buildings). The DGNB (Deutsche Gesellschaft für Nachhaltiges Bauen) generally does not certify products. Therefore the project team or the manufacturer is responsible to declare compliance with respect to the DGNB criteria. Notice: This verification is generated by the Assessment Service of BMS. The distribution or publication by third parties is not permitted. The data sheet is not a DGNB certification document. The information is based on the manufacturer's specifications. Despite a diligent treatment of all information BMS can not make any warranties about the completeness, reliability and accuracy of this information. The requirements of DGNB can be interpreted differently and depend on the project and scope of application. Therefore, BMS cannot accept any liability for the evaluation in terms of the DGNB criteria. The user of the data sheet, the user / purchaser of the product and the consultant / planner, who is advising on this product has the duty to check the product for the intended application at their own responsibility. When a new version of this product verification is produced, the previous version loses its validity.
